

ECONOMIC, EFFICIENT DESIGNS And Services For ELECTRIC, GAS, And TELECOMMUNICATIONS UTILITIES

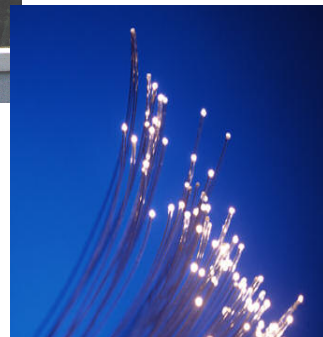

Professionalism, Industry Knowledge, and Technology

Roussey Companies provides design and construction coordination services, and fiber optic cable splicing to electric, gas, and telecommunications utilities. Since 1985, Roussey Companies has provided high quality, reliable service to its clients. Roussey

Companies employs skilled professionals with utility design and construction backgrounds. We provide design, construction management and fiber optic splicing services in the Mid-Atlantic region and utilize web technology to collaborate with clients. Services are offered in either turn-key or service bureau options.

We merge industry expertise with state of the art technology, and commitment to quality. We represent a valuable resource to utilities under pressure to provide high quality service while maintaining a competitive edge.
